### **Kriss Kross**

Kriss-Kross puzzles combine a love of words with a love of logic. We have given you a list of related words of different lengths. All you need to do is fit them all in to the grid.	<b>4 letters</b> Film Lens Zoom
	5 letters Flash Focus 6 letters Camera Filter Tripod 7 letters Digital 8 letters Aperture
	Contrast Diffuser Exposure Portrait  9 letters Burst Mode Landscape  12 letters Depth Of Field Shutter Speed
It Takes Two	2

Each word in a clue can be preceded by the same two letters to spell out another word. For instance, INTER, LATE and TENT can be preceded by PA to make PAINTER, PALATE and PATENT. Can you solve the three clues opposite, then spell out the three pairs of letters to make a six-letter word?

- RUM, BURN, GUST
- · INK, ROB, RUST
- BIT, ALLY, CHARD

### **Kakuro**

The rules of Kakuro are simple - place the numbers 1 to 9 into the puzzle grid so that each continuous horizontal or vertical run of empty squares adds up to the value to the left of it or above it respectively. If there are 2 numbers in the square, the number in the top right is the total for the horizontal row of squares to the right of it and the number in the bottom left is for the column of squares below it.

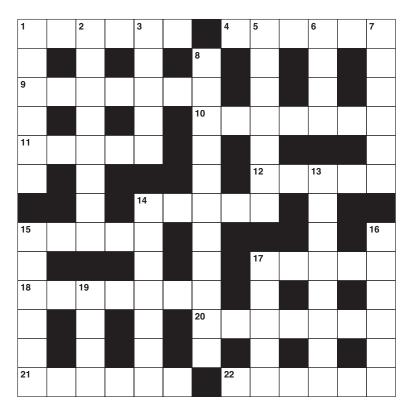

There is one other key rule: the same number cannot be repeated within any run, so the solution to the value '4' cannot be 2+2 but must be 1+3 (or 3+1).

You can repeat a number elsewhere in the same row or column so long as there is at least one clue or shaded square between them.
